

Overview:

Altronix RE2/RE2R Rack Mount Battery enclosure offers a convenient way to house up to four (4) 12VDC/7AH batteries in a rack configuration.

Specifications:

- Battery output PTCs rated @ 12A.
 - Four (4) individual sets of battery power terminals (external).
 - 2U rack mount chassis for use in standard EIA 19" rack.
- RE2 - Black enclosure
 - RE2R - Red enclosure

Installation Instructions:

1. Mount RE2 / RE2R in desired rack location.
2. Remove front access panel by rotating thumb screws counterclockwise (Fig. 2, pg. 2).
3. Place desired number of sealed lead acid or Lithium Iron Phosphate (LiFePO₄) rechargeable batteries in each slot on the bottom of enclosure [BAT1] - [BAT4] (Fig. 2, pg. 2).
4. Connect battery terminals to each pair of Red [+] and Black [-] battery leads that correspond to terminal blocks [BAT1] - [BAT4] (carefully observe polarity).
5. Replace the front access panel by rotating thumb screws clockwise (Fig. 2, pg. 2).
6. Connect charging circuit from single power supply or multiple power supplies in desired configurations [BAT1] - [BAT4] terminals located on the rear of the RE2 enclosure (carefully observe polarity) (Fig. 1a through Fig. 1e, pgs. 1 & 2).
